job seekers

TRAINING OPPORTUNITIES

Mobile Works partners with area colleges, universities and technical schools to provide training opportunities for job seekers.

ON THE JOB TRAINING (OJT)

Mobile Works partners with areas businesses to underwrite a portion of their training costs. New employees hired through Mobile Works earn a paycheck while receiving specialized on-the-job training in high-wage, high-growth, high-demand industries such as aviation, healthcare, maritime, construction, information technology and advanced manufacturing.

INDIVIDUAL TRAINING ACCOUNTS/SCHOLARSHIPS (ITA)

Mobile Works will provide *tuition assistance for job seekers interested in skill building to advance in their current job or train for a different profession by studying at area colleges and universities. The skills gained will allow them to compete for jobs in the workforce.

MOBILE YOUTH WORKS

Mobile Works partners with area training providers to provide eligible youth ages 17-24 with the tools needed to become viable members of the workforce. Students receive career guidance, job placement assistance, tutoring, assistance in obtaining their GED and assistance obtaining their career readiness certificate.

training

Adult Basic Education classes are available at the Alabama Career Center for job seekers needing to enhance literacy and computer skills. Classes are sponsored by Bishop State Community College. The duration of attendance varies according to the needs of the individual. Please visit www.bishop.edu.

ADULT BASIC EDUCATION

SEASONAL WORKER TRANSITION SERVICES

Telamon Corporation, a National Farmworker Jobs program (NFJP), is Alabama's provider of transition services to migrant and seasonal workers.

NFJP provides employment, training and support services to migrant and seasonal farmworkers and their dependents-including help for emergency situations, occupational skills training, remedial education, English as a Second Language classes and help securing year-round, stable employment both in and out of agriculture. Farmworkers and their dependents seeking to upgrade their skills in non-agricultural job opportunities have the chance to attain educational or occupational credentials that increase their job marketability, through agreements with training institutions, private employers and other community partners.
